4

＜Full-year outlook＞

Strong progress against targets, no change in outlook

Impact of COVID-19 ⇒ No major earnings impact expected

☑ **Data network service**

Limited impact (Recurring business around 60% of sales)

① **Recurring** *maintenance (monthly fees)
⇒ **Minimal impact**

② **Non-recurring** *packages (new installations)
⇒ Sales impacted by weaker financial conditions at hospitals (purchasing budgets rolled over to next year, etc.)

③ **Subsidiaries** *'Doctorbook', 'Medical Domain', etc.
⇒ Brisk sales in the online 'Doctorbook' dental business from video sharing the knowledge of dental industry opinion leaders

☑ **Data utilization service**

No impact expected

FY2020 business progress

FY2020 business progress: FY2020 theme and goals

FY2020 theme **Evolution and partnerships**
−Start of business using new medical data−

Goals

Expansion of real-time medical data operation

- Plan for launch of new service based on pilot test results
- Contribute to hospitals' 'work-style reforms', 'security', and 'earnings increase'
- Expand real-time medical data to more than 1.5mn patient cases
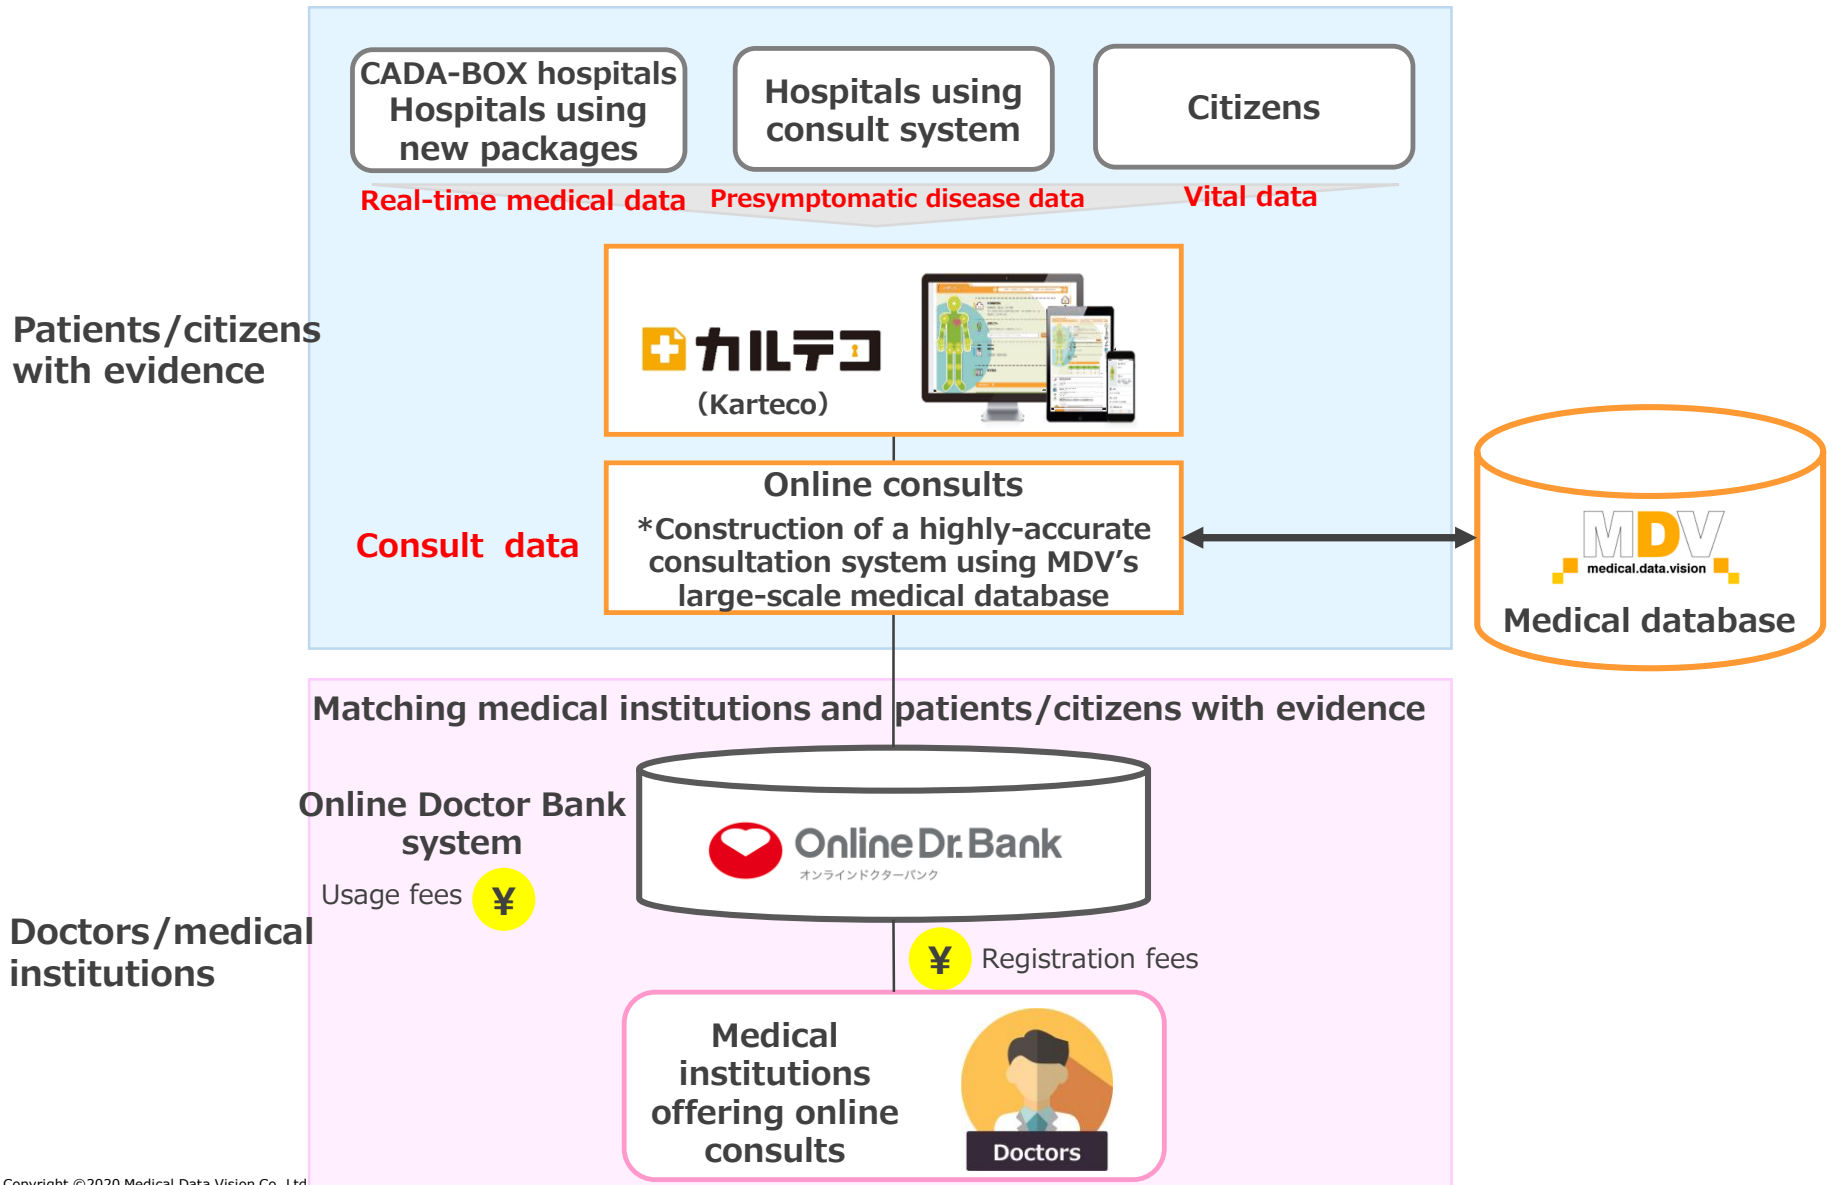

Real-time medical data utilization

- Pharmaceutical companies: analysis using new datasets such as imaging, BP
- Clinical testing: new phase of data-based screening

FY2020 business progress

- Launch of 'Online Doctor Bank' online consultation service
- Introduce needs-driven new products and services for hospitals
  - ① 'MUST'
  - ② 'Kangochi+'
  - ③ 'Vision' hospital operations reports
- Accelerate growth in data utilization service

FY2020 business progress: online consultation service (launched October 27, 2020)

Aiming to build a structure in which all Japanese people have evidence to enable online consultations

Patients/citizens with evidence

CADA-BOX hospitals
Hospitals using new packages

オンライン診療についての日本医師会の考え方

2020年10月28日

公益社団法人　日本医師会

Only 'Online Doctor Bank' can boost the spread of online consultations

Online Doctor Bank

Lots on new patient data
· Past medical history, disease history, prescription history
· Checkup data
· Data on vitals
· Medical questionnaire processed with Big Data

▼

Worry-free consultations due to knowledge of past medical history

Conventional online consults

New patients with no data (medical questionnaire only)

▼

Concerns about repercussions of consultation due to lack of knowledge on past medical history

FY2020 business progress: initiatives to boost the spread of online consultation service

For doctors/hospitals

- **Approach MDV users** (around 850 hospitals)

- **Approach 'Clinical Cloud' members** (around 33,000 doctors)

- **Spread knowledge and promote service among 'CareNet' member doctors**
  - ・170,000+ member doctors
  - ・Extensive range of content platforms for all medical professionals

Care Net

For citizens/patients

- **Online registration for Karteco and procedures for viewing medical data**

- **'Karteco' available as an app**
 ※Can be downloaded from the Apple app store／Google Play Store

カルテコ

(Karteco)

FY2020 business progress: introduce needs-driven new products and services for hospitals

Aim to maintain and expand customer base and grow revenue per-customer via continued provision of needs-driven new products and services for hospitals

Product/service	MUST	カンゴッチ＋ (Kangochi +)	Vision 病院経営レポート
Launch	4Q FY2020 (planned)	3Q FY2020	3Q FY2020
Product/service details	New package contributes to 'work-style reforms', 'security', 'earnings increase' via use of real-time medical data	Application for analyzing nursing needs Vital to assess/analyze nursing requirements given the impact on hospital finances	New service providing distributable reports that give visibility on hospital operations Nationwide hospital comparison possible
Pricing format	Installation fee /monthly maintenance fee	Monthly usage fee	Monthly usage fee
Target client	Acute care hospitals, general hospitals	Acute care hospitals	Acute care hospitals, general hospitals, rehab hospitals, chronic care hospitals

FY2020 business progress: accelerate growth in the data utilization service

Accelerate growth in medical database of exceptional quality and volume

Hospital

Benefits

Extensive patient data (all ages, ins. types)

Analytical extensibility (e.g. combination with test data)

Data on disease severity

Start accepting orders for health ins. data
→ Steady growth in Ad hoc, analyzer orders — Sales

Accept orders for post-marketing database study
→ Surveys of cancer patients
Possible using MDV's extensive database on the elderly and acute care hospital patient numbers — Sales

Publish papers using large-scale medical databases
→ Contribute to increased quality of medical care via use in R&D — DB value

『Trends in Hospitalizations for Asthma During the COVID-19 Outbreak in Japan』

FY2020 business progress: accelerate growth in the data utilization service

①Simultaneous analysis using two types of data (MDV analyzer): all patient numbers

FY2020 business progress: accelerate growth in the data utilization service

② Simultaneous analysis using two types of data (MDV analyzer): atopic dermatitis

FY2020 business progress: accelerate growth in the data utilization service

③ Simultaneous analysis using two types of data (MDV analyzer): hematological cancer

Services overview

【Data network service】

| Product	Overview	Price
EVE	Analysis of charges/DPC fee gap, patient #s/stay length/resources by disease/condition, and benchmarking with other hospitals Uses benchmarks to identify user hospital's trends/strengths & weaknesses, helps with detailed investigation of treatment policy as core of hospital management	Installation: Y4mn Maintenance: Y50,000/mth.
Medical Code	Uses standardized format for DCP/elec. receipt data to support hospital management in areas like costing, raising treatment prices Unlimited user registration promotes smooth internal data sharing, change in awareness/actions to help improve management	Installation: Y8.2mn Maintenance: Y100,000/mth.
CADA-BOX	System for hospitals that allows linkage to existing electronic records by merging online patient-use data portal Karteco and deferred medical fee payment service CADA Payment Free to use for patients	Installation: Y20mn Maintenance: Y500,000/mth.

【Data utilization service】

Product	Overview	Price
MDV analyzer	Online analysis tool allowing clients to easily examine data on patient numbers, prescription lengths/volumes using Japan's largest medical database Enables multifaceted analysis based on actual medical practice (surgery, testing) as well as disease and drug regimen	Y20mn/yr.
Ad hoc surveys	Provision of tailored reports in line with client's wishes	Avg. Y3.5-4mn per survey
