Selected as Component for ESG Index
“FTSE Blossom Japan Sector Relative Index”

Medical Data Vision Co., Ltd. (“MDV”) announced today that it has been selected as a component for inclusion into the FTSE Blossom Japan Sector Relative Index (“Index”).

FTSE Blossom Japan Sector Relative Index

※FTSE Russell confirms that MDV has been independently assessed according to the index criteria, and has satisfied the requirements to become a constituent of the FTSE Blossom Japan Sector Relative Index. The FTSE Blossom Japan Sector Relative Index is used by a wide variety of market participants to create and assess responsible investment funds and other products

The FTSE Blossom Japan Sector Relative Index is constructed by FTSE Russell, a global index provider. The Index reflects the performance of Japanese companies that demonstrate strong environmental, social, and governance (ESG) practices in their respective sectors, and is designed to be sector-neutral. Also, to promote the transition to a low carbon economy, companies with particularly high greenhouse gas emissions are included in the Index only if their improvement efforts are evaluated using the TPI Management Quality Score.

The Index is adopted as a passive investment benchmark for ESG investment by the General Pension Investment Fund (GPIF).

The MDV Group will take its inclusion in the index as momentum to further focus on sustainability initiatives, work to address social challenges through its business activities, and strive to enhance its corporate value.
