

Independent Practitioner's
Assurance Report

June 17, 2025

Mr. Hiroyuki Iwasaki,

President
Medical Data Vision Co., Ltd.

Masayuki Kobayashi

Chief Executive Officer
Asuene Veritas Inc.
1-10-5 Toranomom, Minato-ku, Tokyo

We have undertaken a limited assurance engagement of the following information for the period from January 1, 2024 to December 31, 2024 (the “Sustainability Information”) included in the “「Disclosure of Information Related to Climate Change」 in 「Integrated Report 2025」” (the “Report”) of Medical Data Vision Co., Ltd. (the “Company”).

Identified Sustainability Information	Amount (unit)
GHG emissions: Scope 1 (direct emissions)	13 (t-CO _{2e})
GHG emissions: Scope 2 (indirect emissions)	184 (t-CO _{2e})
GHG emissions: Scope 3 (other emissions) - the following	
Category 1: Purchased goods and services	3,542 (t-CO _{2e})
Category 2: Capital goods	280 (t-CO _{2e})
Category 3: Fuel and energy-related activities (not included in Scope 1 or Scope 2)	46 (t-CO _{2e})
Category 4: Upstream transportation and distribution	141 (t-CO _{2e})
Category 5: Waste generated in operations	29 (t-CO _{2e})
Category 6: Business travel	374 (t-CO _{2e})
Category 7: Employee commuting	92 (t-CO _{2e})
Category 11: Use of sold products	216 (t-CO _{2e})
Category 12: End-of-life treatment of sold products	0 (t-CO _{2e})

The Company's Responsibility

The Company is responsible for the preparation of the Sustainability Information in accordance with the calculation and reporting standard adopted by the Company. This responsibility includes the design, implementation, and maintenance of internal controls to prepare sustainability information that is free from material misstatement, whether due to fraud or error. Greenhouse gas quantification is subject to inherent uncertainty for reasons such as incomplete scientific knowledge used to determine emissions factors and numerical data needed to combine emissions of different gases.

Our Independence and Quality Management

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior. We apply International Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements, and accordingly maintain a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our Responsibility

Our responsibility is to express a limited assurance conclusion on the Sustainability Information based on the procedures we have performed and the evidence we have obtained. We conducted our limited assurance engagement in accordance with the International Standard on Assurance Engagements (“ISAE”) 3000, Assurance Engagements Other than Audits or Reviews of Historical Financial Information, issued by the International Auditing and Assurance Standards Board (“IAASB”), ISAE 3410, Assurance Engagements on Greenhouse Gas Statements, issued by the IAASB and the Practical Guideline for the Assurance of Sustainability Information, issued by the Japanese Association of Assurance Organizations for Sustainability Information.

The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, analytical procedures, evaluating the appropriateness of quantification methods and reporting policies, and agreeing or reconciling with underlying records. These procedures also included the following:

- Evaluating whether the Company’s methods for estimates are appropriate and had been consistently applied. However, our procedures did not include testing the data on which the estimates are based or reperforming the estimates.
- Performing interviews of responsible persons and inspecting documentary evidence to assess the completeness of the data, data collection methods, source data and relevant assumptions applicable to the sites.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement.

Limited Assurance Conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Sustainability Information is not prepared, in all material respects, in accordance with the calculation and reporting standard adopted by the Company.
